### HOME AND FOREIGN GOSSIP.

A MORNON society has been discover-l on Sand Mountain, Ala., between

Marshall and De Kalb Counties.

Ar is estimated that 60,000,000 of the human family are addicted to the use of saffere: Anniesustant to the use of ten; CONTROL to opium: 600,000,000 to thing like it before!" caracter or seriou, ear to tobacco.

rn cruising in the winter season. In addition to her working sails, she will

A change of \$1.129 against General Scott for contingent expenses at his headquerters in New York has been regularly brought down on the books of the Auditor from 1816 until the present day. The Auditor now advises Secretary Met'rary to relieve the General from his hability. Providence has been some years ahead of the War Department in this business.

The King of Gaboon died, about the beginning of May, at the advanced are of 100 years. He was the oldest native of 100 years. He was the oldest native of 100 years. He was the oldest native of 100 years. When the horses scored again there was a test driver tader the orange colours the horse said he was only and the present house said he was only shaken up, and others beoked gravs as they saw his white face and the bloody troth on his light for the providence has been some years ahead of the War Department in this hability. Providence has been track-keeper's house, and the Dector examined him and said:

"He won't drive again this summer, and I fear that he has met his death blook."

"He was the oldest native with him?" said the old track-keeper's house, and I he becken suiky.

"He won't drive again this summer, and I fear that he has met his death blook."

"What was the time?" whispered

beginning of May, at the advanced are of 150 years. He was the oldest native Prince on the African coast. His eldest-on, Andante, who successed, immediately broke up his father. harem and cashiered the women to the number of ico. He also liberated all the deceased King's slaves, and abolished the sacrinee of human beings at religious rites.

15 St. Peter's, Rome, there is a class topened only thrice a year, in which the pilgrims deposit money to pay for maintaining the fabric of the great cathedral. Inasumeh as it was known a mouth ago to be nearly full, one of the ringers and a shoemaker thought it a favorable time to belo themselves to have the great below the favorable time to belo themselves to have the great below to the favorable time to be a favorable time to be favorable time to help themselves to about him every hour in the day, and some of the money, and concealed themselves in the building for that purpose:

It was plain that death was coming the way have but they could neither but the guards discovered that something was wrong, and succeeded in are er break his feser, nor lear resting one to the would-be thieves, thoughts into other channels. other dodged around pillars, etc., and got away.

It is stated in a German engineering journal that larks often build their nests and rear their young under the switches of a railway over which heavy trains are constantly rolling, and swal lows make their homes in engine-houses A pair of swallows have reared their young for years in a mill where a noisy 300-horse power engine is working night and day; and another pair have built a nest in the paddle-box of a steamer which plies during the season between

nese merchant of San Francisco, was buried a couple of weeks ago. Elab-orate religious rites and burial ceremoorate religious rites and burial cereno-orate religious rites and burial cereno-nies were performed. Two bands of Chinese musicians were employed, be-of midnight they made out a human fig-ure beside the bell. It was not Honest Veold chill crept over each one Chinese musicians were employed, be sides a score of mourning women, priests and other attendants. The street was literally packed with Chinamen. About a peck of 5-sent pieces, each carefully wrapped in a piece of paper and tied with a dainty ribbon, was scattered broadcast in the crowd, ascording to the Chinese custom. The cording to the Chinese custom. The cording comprised over 20 carriages, its sides a band and express wagon.

ago. There has been strife among medical men over the discovery of anotheries; but hundreds of years ago a celestial physician named Hae-The was in the habit of administering to his patients a preparation of mayo, or hemp, which rendered them temporarily insensible to probing, enting, and miscellaneous hacking. An encyclopedia would seem to be a triumph of modern research, but the Chinese have had encyclopedias time out of mind. A correspondent of the London Times states that there is in Paris a Chinese encyclopedia, entitled the "Kon-Kin-i-tong," and stamped her feet as she stood there,

Tire diversors of English fashionable the dead?" society are various and some of them vivid. During Ascot week a charming and horse and driver dashed past the vivid. During Ascot week a charming party were assembled in the neighbor hood of the great race-meeting. Among the number was a young lady whose prowess across the country is proverbial. The weather being hot some of the the number was a young lady whose the number was a young lady whose provers across the country is proverbial. The weather being hot some of the ladies appeared at breakfast in demission the lawn. The heroine of this about the lawn. The heroine of this ancedote on nearing some ornamental water took a flying header into it and swam about till she had had enough, water took a flying header into it and swam about till she had had enough.

that characterizes their eccentric application of themselves to a fixed duty at a certain hour of the day. There is but one action on the part of either indicative of defective reasoning faculties, and this so harmless that it attracts attention only by the pertinacity with which it is carried out.

The value of trees, in a satisfact point.

"Splendid—beautiful—not—even a skip!" he chuckled, rubbing his hands together. "She won't quite make it this time, but she will on the next! How she comes! What knee action! What a reach! How she keeps the bit!" In another second, almost, the little horse, reaching out as no one had ever seen her before, passed under the wire.

The value of trees, in a sanitary point of view, in large and over-crowded cities, says the London Medical Expendent, can scarced be over-estimated. Apart from the sense of relief and coolness which they impart, their influence as purifiers of the atmosphere is almost incredible. It has been calculated that a good-sized elm, plane or lime tree, will produce 700,000 leaves, having a united area of 200,000 square feet. The connectent authority above quoted proceeds to show that not only do the leaves absorb deleterious gases, but they exhale oxygen. They must, therefore, passed under the wire seemed under the wire seem her before, passed under the wire seemed the lariat being attached to the horse of a steer. This lariat, for a distance of the lariot being attached to the horse of a steer. This lariat, for a distance of the was looking straight ahead and holding the lines with a firm grip.

Ding' ding' ding' rang the bell, and the horse came back at a jog. As she stopped at the stand the strange time the horse of the driver seemed with blood, and the supposition was that in lassoing the steer the lariat had accidentally become twisted or wound around the man's neck, and that after he horse of the driver seemed with bloods, and the supposition was that in lassoing the steer. This lariat, for a distance of three or four feet, was freshly stained with blood, and the supposition was that in lassoing the steer the lariat had accidentally become twisted or wound around the man's neck, and that after he horse came back at a jog. As she stopped at the stand the strange time the horse of the driver seemed the lariat being attached to the horse of the steer. This lariat, for a distance of the driver seemed the lariat being attached to the horse of the track, but the lariat being attached to the horse of the track, but the steer. This lariat, for a distance of the driver seemed the lariat had accidentally become twisted or wound around the man's neck, and the steer. This lariat, for a distance of the corner of the product t romest dack nesided his head, and as left that section.—San Autonio (Tex.)

leaves absorb deleterious gases, but they exhals oxygen. They must, therefore, be of immense benefit in over-crowded and unhealthy districts. When to this him, but the old man shock his head and unhealthy districts. When to this him, but the old man shock his head and whispered.

The Turks. To my mind there is no such thing to my mind there is no such thing as making a progressive effizer out of the Turk. He is a creature without emotion, without sentiment, and mainly without principle. He is contented and happy, but what the ages have made him fe will remain. Like the American Indian, he may be exterminated, but his nature will never be changed. He looks man the superior achievements of looks upon the superior achievements of civilized people as vain tricks, and re-gards his own simple methods as the perfection of wisdom. If he owes mon-cy he never waiks the floor at night in agony begotten of inability to preserve his credit. He lets the other man do the walking, and consoles himself with er break his never, thoughts into other channels.

"There goes the bell! Get ready! the walking, and consoles himsen was the right! Out o' the way there! I take the pole!" he kept calling out, and they the pole!" he kept calling out, and they the thought it at the world is a temporary affair, and the seventheaven of Mohammed the only thing worth an effort. No nation can be great that degrades women. The Turk has no family. He has no family ties. His children have no family names. His women are ig-norant, and have no idea of virtue in the sense of chastity. To these creatures is given the early education of children. To these women, who are not even honored by the Koran with souls or a fu-ture, the men of Turkey trace their early associations, their early teachings Can it be possible to beget, under such a system, men either of intelligence, aspirations or noble attributes? - Cincinnal

## A Unique Aerial Trip.

Queer county, that Lancaster. Many this decidedly takes the mule by the tail and makes him turn about face in less than a York second. Think of being caught up by a whirlwind and carried as a dead head for two miles on the ragged edge of an inky cloud that cuts the air at the rate of 67 miles an hour, and then being kindly dropped near some convenient hospital. Romantic, de-cidedly picturesque, ain't it? Can't swallow it, ch? Well, we do not inswallow it, els? Well, we do not in-tend to, but give it as a matter of news. The Williamsport, Gazette is the guilty party that attered it. The man's name was Jacob Eisenberger, and he lived at have acted. Little Nell worked her ears pedia, entitled the "Kou-Kin-i-tong," which dates from a period corresponding to 220 of the Christian era.

"See how nervous she is—she smells only save to say that he was insensible the dead." through the entire performance.-Eric Dispatch.

# Music in the Russian Army.

There is only one band in each diviswhen she landed and challenged a well known sportsman to a race. Helter-skeiter they went, round the lawn, across the flower shelts, till the hady, finding decrete flower-shelts, till the hady, finding herself mearly caught, jumped once more into the water, followed all tooloobs were severely bumped and had to be fished out by the bystanders.

THE peculiar phases of excentricity, in incipient insunity, in patients of a rection have less than at a pump, and counts those who appears daily before the City-shall clock at precisely noon, and in Baltimora, a man appears daily before the City-shall clock at precisely noon, and in Baltimora, and the pat, pat of the water at pears and color the chews for two or three seconds as she and appears daily before the City-shall clock at precisely noon, and in Baltimora, as a checkle of delight from the departs for his home. Both men are remarkable for the regularity of all their habits. They rise, breakfast, dine, sup, and retire with the same method that characterizes their explication of themselves to a fixed duty at a state of the homestretch. He could have seen in the bright and or the many hards and hards which have been the or horse thundered into the wind and hards wallowed has harding and below could have seen in the being hards and harding water in mission and harmony take up the chorus, the substant harding hards which the trans at the mission of themselves to a fixed duty at a state of the part of the horse hards which are the high broad and harding water than harding hards whit in which the mission of the scale hards and harding hards are

we failed to learn, was found on the prairie with his head completely severed from the body. Near the body was found a horse, with a rawhide lariat fastened to the saddle, the other end of

had scarcely caught her breath, and yet when she came down under the wire and heard the hoarsely whispered word, "Go!" she shot into the darkness like an arrow from a bow.

Paying an Old Bebt With Interest.

Mr. Edmund L. Goold, a personal Currants, and white sugar, equal field of Ralston, gave Eli Perkins the red currants, and white sugar, equal a young man whose extreme mostesty quantities in weight. Stir it gently and fortunate California Bank President, smoothly for I hours, put it into glasses, who may be called "Smith," was prepared to be sugar, equal to be the sugar to be sugar, equal to be sugar, equal to be the sugar to be sugar, equal to be sugar, equal to be the sugar to be sugar, equal to be sug

to get there.

After a while Mr. Martin decided that he would lend Ralston \$500 on his own account and run the risk of payment, and giving it to him Ralston started

about it, or else he lost track of Martin. But 11 years afterwards I met Martin in "Be teader with him!" said the old New York. He was broke then himself-gone all to pieces -hada't a dol-lar. Raiston at this time was at the meridian of his glovy, spending money by the militons. Well, one day Marrin came up to me looking very seedy, and asked me if in my travels in California I had ever met a man named Billy Ruls-

> "Billy Ralston?" said I. "Baddly Radds-to-n? why, I know a man by the name of William A. Ralston—used to be with Commodore Garrison in Panama. It was Fitz, Raiston & Garrison in San Francisco, but now Ralston is at the head of it."

> "Well, Mr. Goold, that's the Billy Ralston that borrowed the \$500 of the down in St. Louis in '48. Do you think he could pay it back now?" "Pay it back?" said Mr. Goold, "why.

you're joking Pay it back! Ralston pay \$500! Why, Martin, Ralston can pay back \$5,000,000." "Well," said Martin, "when you see Billy in Frisco you just tell him bom

me—and if he ain't strapped and it 'twon't break him up, I jes wish he'd pay me that \$500."
"The fact of it is," said Mr. Goodd. as he told the story, "I thought Martin was joking. I had no idea that Raiston owed him any thing. But when I got back to California I thought I'd banter

Raiston about it. So one day when I was in Raiston's room I said jokingly... You're a nice fellow, Raiston, to be cheating an old friend out of five hun-ded dollars, am't you?"
"What do you mean?" said Raiston.

"What?" exclaimed Ralston, jumping to his feet, "Warwick Martin" To Parsanya W Pare off the thin gr "Where's his address? Here'" he to pieces or fancy s
